Social Responsibility

—Your Health We Care—

WEGO 威高

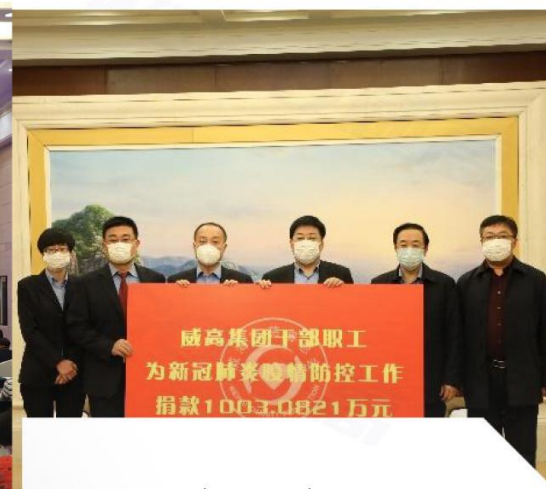

Heavy rainfall in Henan caused severe disasters. Weigao Group donated various medical supplies worth 15 million yuan, such as infusion pumps and hemodialysis supplies, to the local hospital.

Weigao Group helps the disabled and arranges jobs for them.

Weigao Group makes donations to the "One Day Donation for Compassionateness" every year to help people in distress relieve their life pressure and actively promote the construction of a harmonious society.

During the epidemic, Weigao produced more than **1.5 million** emergency medical supplies and donated more than **45 million RMB**.

Weigao (Shanghai) International Research Institute

Based in Shanghai, Weigao's "R&D" strategic layout

The establishment of Weigao Shanghai headquarters is to take advantage of Shanghai's location to quickly occupy the domestic and international markets, to seize the technology, capital and talent highlands, and to create conditions for the development of Weigao Group in the next 30 years.

Build the most innovative
first-class talent team

The total investment in the project of Weigao (Shanghai) International Research Institute is estimated to be **2.3 billion yuan**. The project plans to build a research and development team with more than **2,000 people**, focusing on forward-looking research and development, targeting international advanced technologies, and strengthening the R&D and innovation of medical equipment.

Quality assurance

over **100+** countries
and areas, including

USA , EU , RUSSIA, SOUTH AFRICA, BRAZIL

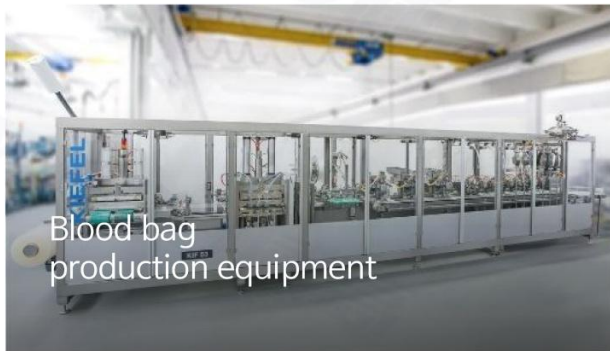

PRODUCTION MACHINE

- Kiefel Production machine
- Automatic washing and siliconizing machine imported from Germanic B+S
- Automatic needle assembling machine imported from Germanic R+E
- Camera detection control station
- Automatic heat-treating machine imported from italian euromatic
- Ceramic printing and tip cap processing of prefillable syringes
- Automatic forming machine is imported from germanic ambeg

Orthopedic production equipment

Blood bag production equipment

Orthopedic production equipment

A close-up photograph of industrial machinery, likely a textile or metal processing machine. The machine features a complex arrangement of metal frames, pipes, and a black adjustment knob. A yellow cable is visible on the left. A red semi-transparent overlay covers the right side of the image, containing text. The background is blurred, showing more industrial structures and a green light.

EQUIPMENT

Our manufacturing equipment has advantages of high automation, high precision, high productivity and high stability.

A female scientist with dark hair tied back, wearing a white lab coat and a blue surgical mask, is focused on her work. She is holding a white and blue pipette, dispensing a small amount of yellow liquid into a test tube held in her other hand. The background is a blurred laboratory environment with shelves containing various glassware and equipment. The lighting is bright and even.
